

CASTLE AIR ACADEMY

The Training Specialists

Castle Air Academy is an approved training organisation with over 35 years' experience, specialising in advanced training for qualified pilots.

The Academy Instructors all hold the highest grades of professional licence, boasting many years of both civilian and military flying and extensive experience of flying in adverse weather conditions and challenging environments.

Their instrument rating and type rating training for qualified pilots wishing to extend their skills is also second to none. The Academy is proud of their reputation for delivering high caliber training, in a relaxed and friendly environment.

They set out to ensure that pilots are trained to very highest standards and their achievements are used as a benchmark across the industry.

- AW109S
- A109
- AS355
- Bell 206

Simulators

- 2 x FNPT II Elite
- 2 x AW109E Simulator with **force trim**

Why Choose Castle Air Academy

Here are just a few of the reasons Castle Air Academy students return again and again:

- The Academy have their own In-House Examiners, one of which is a CAA panel examiner

- Their trainers and examiners are highly experienced with many hours of Military & Civilian flying
- The Academy boasts 4 simulators - AW109E x 2 with force trim, AS350 Elite FNPTII x2
- The Academy is the only flight school in the UK to have an AW109E simulator that faithfully replicates the aircraft in all the following critical areas– functioning autopilot, force trim with control feedback forces, full EFIS display. Furthermore, it is a replica of the cockpit layout of the training aircraft used by Castle Air Academy, which results in a seamless transition from simulator to aircraft.
- Students are encouraged to use the simulators for 'practice' over and above the course specification at no additional cost
- Extensive facilities that can handle large groups of students
- Discounts offered for group bookings reducing training costs significantly
- Experience of training across many different business sectors including civilian, military & oil
- Experience of training students from around the world – China, Hong Kong, Malaysia, Indonesia, Czech plus many more
- At the end of the course students will be fully assisted with all their paperwork
- Gloucestershire Airport has unmatched instrument training facilities right from take-off, including an ILS approach.
- The Academy offer the opportunity for potential employment at the end of course for suitable pilots
